“helping independent churches grow”

About us

We are an independent charity, set up specifically to work with church buildings, to encourage church growth and church planting. We are committed to seeking God's will with you for your property

We employ a Chartered Architect and a Chartered Surveyor, who work together to offer a full range of services, from help and advice with the initial assessment of a building right through to helping you complete a building project.

As a charity we only need to cover our costs, so we charge reduced commercial rates for our time spent with you on your project.

Gill Pedler RIBA

Giles Arnold MRICS

Church buildings

Your church buildings are an asset to your church and an invaluable tool for serving and reaching your local community.

We are passionate about helping churches to have properties that are centres of excellence, fit for worship and mission. We would be delighted to work with you in growing the Kingdom where you are.

Please contact us if you think we can help:

gill.pedler@churchgrowth.org.uk

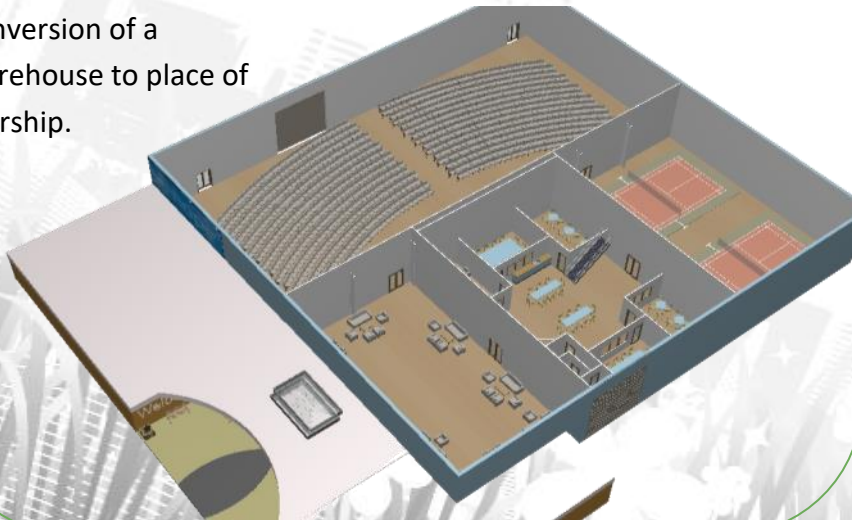

Examples of our Work—Feasibility

Corby:

Feasibility study for the conversion of a warehouse to place of worship.

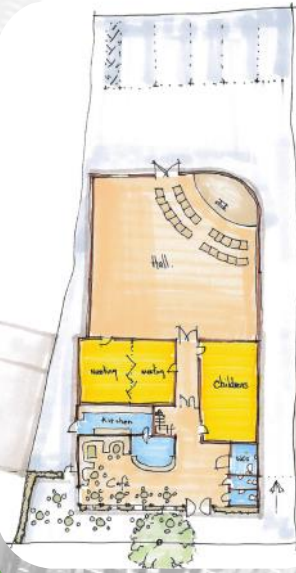

Examples of our Work—Extensions

Oakleigh
Community Church

Whetstone London:

Sketch ideas for extension and alterations to church building to provide larger meeting hall, small meeting rooms and community facilities.

Examples of our Work—Conversions

Derby:

Conversion of a warehouse to a place of worship—from feasibility and planning permission to the completed project.

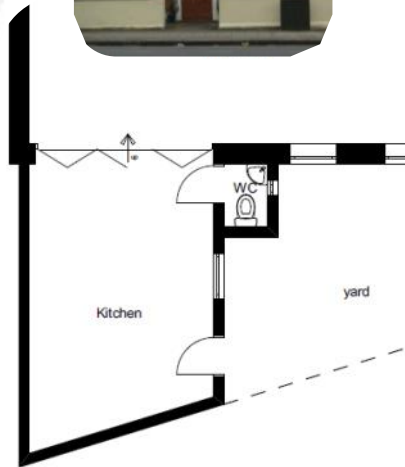

Examples of our Work—Alterations

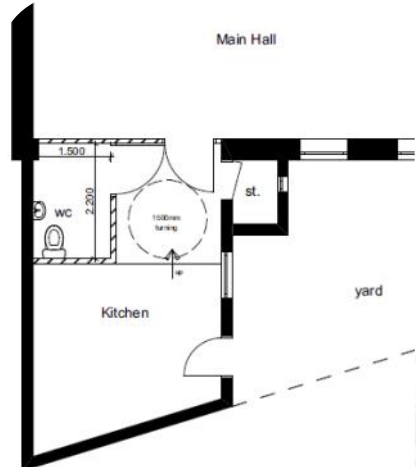

Tooting:

Alterations to offer compliant accessible facilities.

Existing Layout

Proposed layout

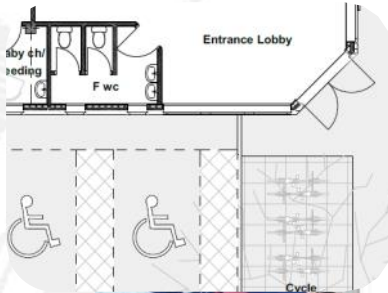

Examples of our Work—Condition Surveys

To help you plan ahead for the maintenance and upkeep of your building.

We provide a written report on the condition of your building, highlighting any problem areas and estimating costs for repairs. We also include advice about how soon the work will need to be carried out and can suggest suitable local specialists who might be interested in doing the work.

Examples of our Work—Access Audits

We can assess your building for accessibility and help you plan how to improve your facilities so that they comply with current policies and building regulations.

Examples of our Work—New Buildings

Newent:

Feasibility study and sketch proposals for a new church and community building.

Our Architectural Services

We offer full Architectural Services and can help you at every stage of your building project including:

- Practically working out with you, God's vision in optimising space in your existing building or making best use of a new meeting place.
- From obtaining planning consent to a complete building project, or anything in between.
